

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

The YFS Collidr Multi-Asset Fund

Share Class: Institutional Accumulation Shares

ISIN Code: GB00BGLNHC03

Authorised Corporate Director (ACD): Yealand Fund Services Limited

Objectives and investment policy

The Fund is intended to provide capital appreciation over the medium to long term (7 years plus) by investing in a diversified portfolio of assets.

To achieve the investment objective, the fund typically invests in a mix of assets including equities, bonds and currencies from anywhere in the world. The Fund may invest in these assets directly or indirectly. The fund aims to gain exposure to fixed income assets in a range of 0-60%, and in equity assets in a range of 0-40%. The remaining portion of the Fund's assets will be invested in money market instruments, cash, near cash and deposits.

Indirect investment in securities will be achieved by investing in Collective Investment Schemes ("CIS"), which includes regulated CIS, exchange traded funds, investment trusts, structured products (products which usually offer a fixed-term pre-defined return linked to the performance of a range of assets or indices) or derivatives, or a combination of each as permitted by this policy and the Regulations.

The Fund may utilise derivatives for investment purposes and to reduce the risks and costs of managing the fund.

The Fund may invest in CIS which are managed by the ACD, the Portfolio Manager or their associates. Investment in CIS will generally be directed toward funds which invest primarily in equities and debt securities, however the Fund may invest in CIS which have different investment strategies or restrictions to the Fund, including the ability to gain exposure to assets which are not expressly included in this policy.

The Fund is actively managed and has, with the exception of the above noted percentage ranges, no limit to which it can be invested in each sector or asset type, nor is there any particular geographic focus. The Fund may invest in Emerging Markets which are countries that are progressing toward becoming advanced, usually shown by some development in financial markets, the existence of some form of stock exchange and a regulatory body. The Portfolio Manager has full flexibility to adjust the proportion of the property of the Fund

depending on their view of market conditions and the assets which it believes are most likely to achieve the Fund's investment objective. From time to time the liquidity of the Fund may be increased substantially if judged to be in the interests of investors.

A Glossary of Definitions which provides definitions to some of the technical language used in this document is available from www.yealand.com/policies.

Dealing frequency

Shares in the Fund may be bought or sold before 12pm on any business day.

Distribution policy

Any income is accumulated bi-annually and reflected in the price of shares.

Target Market

The Funds are suitable for retail investors, professional investors and eligible counterparties whose investment requirements are aligned with the objectives, policies and risk profiles of the Funds. The Funds will be distributed primarily via fund platforms, wealth managers, discretionary fund managers and financial institutions. The Funds have no complex features or guarantees and investors do not necessarily need to have investment experience however a basic understanding of investment markets, the kind of underlying investments of the Funds and the risks involved in investment is important.

The Funds may not be suitable for certain investors, including but not limited to those whose objectives and needs are not consistent with the nature of the Funds, those who are unable to commit capital for a sufficient term or do not have sufficient resources to bear any loss which may result from an investment in the Funds. The Funds are also not committed to meeting any specific ethical, social, religious or environmental restrictions which some investors may be seeking.

The Funds may only be appropriate for investors who might need to access their capital in the medium to long term (7 years plus).

Risk and reward profile

The share class is ranked in risk category 4 as its price has experienced average rises and falls historically.

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The risk category shown is not a target or a guarantee and may change over time. Investors are advised that the lowest category does not mean a risk free investment.

The risk indicator for this Fund reflects the following:

The value of investments in the Fund and the income from them may go down as well as up and you may not get back your original investment when you sell your shares.

During unusual market conditions, the risks normally experienced by the Fund may increase significantly, and in addition, the Fund may be subject to the following risks.

2024 – Version 1

Counterparty risk: The Fund could lose money if an entity with which it does business becomes unwilling or unable to honour its obligations to the Fund.

Currency risk: Even with the use of hedging techniques, changes in currency exchange rates could adversely affect Fund performance.

Default risk: The issuers of certain bonds could become unable to make payments on their bonds.

Derivatives risk: the value of a derivative depends primarily on the performance of the underlying asset. A small movement in the value of the underlying asset may cause a large adverse movement in the value of the derivative and therefore the net asset value of the Fund. The other party to the derivative may not meet its obligations. Use of derivatives may create leverage and may result in losses that are greater than the original amount invested.

Liquidity risk: During difficult market conditions, some securities may become hard to value or sell at a desired price.

Management risk: Investment management techniques that have worked well in normal market conditions could prove ineffective or detrimental in extreme market conditions.

For full details of all the risks that could affect the Fund, please refer to the Prospectus.

Key Investor Information

Charges

The ACD receives an annual fee, which is included in the ongoing charges shown here. You may be eligible for lower entry charges than the maximum shown. Ongoing charges are the same for all investors in the same class. The charges shown here are based on estimated expenses for the 12 months ending 31 August 2023.

For more information about charges, please see the "Charges" section in the Fund's Prospectus which is available from the ACD.

Charges taken from the Fund over a year:

Ongoing charges 1.30%

Actual charges will vary and will appear in the next annual report.

Charges taken from the Fund under specific conditions:

Performance fee None

One-off charges taken before or after you invest:

Entry charge 5%

Exit charge None

Past performance

Fund launched: 19 April 2010.

Share class launched: 16 December 2013.

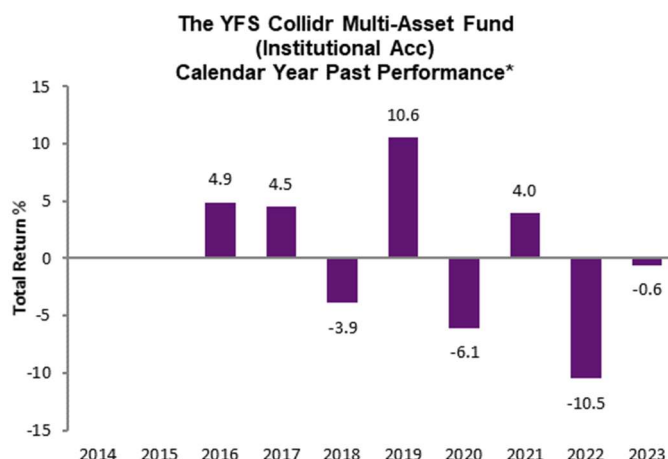

This chart shows the performance for the Fund for 10 full consecutive years (or for each full calendar year since the launch of the Fund if it has not been in existence for 10 years).

Past performance is not necessarily a guide to future performance. The performance figures of the Fund do not include the effect of subscription and redemption fees. The past performance of this Fund is calculated in pounds sterling.

Performance figures are prepared on a mid-mid net income reinvested basis (source: Yealand Fund Services Limited).

* In the period to 16 December 2013, past performance is represented by Retail Shares

Formerly The Galatea Opportunity Fund. The Galatea Opportunity Fund was renamed The YFS Collidr Multi-Asset Fund (the "Fund") on 07 March 2021. A change to the investment objective, policy and the structure of the Fund to a UCITS was also effective from this date. For the avoidance of doubt, the historical data referred to above relates to the performance of the The Galatea Opportunity Fund up to the date the amendments took effect and (where such performance data is available) to the Fund thereafter. It should also be noted that whilst the structure of the Fund changed to a UCITS on the above effective date, the Fund has been managed as a UCITS since 2016. Therefore, past performance is included from 2016. As the investment objective and policy of the Fund has been amended, the amendment data should not be relied upon as a guide to the future performance of the Fund.

Practical information

Depository - NatWest Trustee & Depository Services Limited

This Key Investor Information Document (KIID) may not contain all the information you need. For additional information on the Fund, on other share classes of this Fund and on other Funds managed by Yealand Fund Services Limited, or to obtain a free copy of the Fund's Prospectus or the latest Reports and Accounts, call the information line or write to the registered office, details of which are below. The Prospectus and shareholder reports are in English.

The YFS Collidr Multi-Asset Fund is one sub-fund of The YFS Collidr Multi-Asset Fund, an "umbrella OEIC". Where there is more than one Fund in an umbrella OEIC, each Fund is treated as a separate entity. The Fund complies with the 21 December 2011 statutory instrument, no 3049. This established the "Protected cell" regime for umbrella OEICs and provides, "Segregated sub-fund liability" which means the assets of any single sub-fund cannot be used or claimed upon to settle or offset the liabilities of another sub-fund, or the umbrella itself.
